(Acque pietrificate)

incandescenze
lacerarono le acque

pietrificando i marosi
~~turbolenti~~
scolpirono l'eone
che attraversò il tempo
dai fianchi nudi

Sonorità profonde
scossero l'embrione
e l'uomo conobbe
la bellezza del tuono
e della luce

8/4/96 ore 2.30

(a piedi nudi sulle pietre nere)

Lave primordiali
mordono la carne

Un fascino remoto
trascina l'essere
dove più lontano
il miraggio appare
nelle nere luci
palpitanti

(nere luci palpitanti
mordono la carne)

(nera montagna di lava
che sovrasta l'oceano
dove chiromanti pro-
fetizzano)

Dimorano gli oracoli
nel dorso nero
dalle mille rughe
parlanti

Sincronie
afferrano la mente
in un sottile gioco
di percezioni
dove l'essere
scova se stesso
e la divinità
oscura
